### Trackmobile sponsors Long Cane Middle School's Cougar Strong Racing

Trackmobile is proud to have sponsored the Cougar Strong Racing Team for the past four years. The Greenpower USA program, founded in 2017, aims to advance education in subjects of sustainable engineering and technology to young people.

Cougar Strong Racing works to change current views about engineering, by presenting it as a fascinating, relevant and dynamic career choice for any young person. The program also helps strengthen college and career readiness, by teaching students valuable engineering and workforce skills. Along with demonstrating the importance of engineering, and associated STEM subjects, the program also promotes social inclusion through engagement with vulnerable and economically disadvantaged young people.

### Mid Season Update

Cougar Strong Racing began their 5th season with lots of new faces, a total of 44 students in the race program! The race program operates with three teams:

- 6th Grade 555 Team-Stock Division
- 7th Grade 000 Team: Modified Division
- 8th Grade 999 Team: Modified Division

The team most recently competed at the Oxford Green Prix at Choccolocco Park, Oxford AL. It was a successful day for the team, with the #999 Team taking 1st place in the Intermediate Modified division and #000 Team finishing 2nd. The #555 Team also placed first in the Intermediate Stock division. The Team has six more events to finish out the season, ending with the National Championship Race at Talladega Superspeedway
